WEBSITE:

The Annual Meeting Committee reports have been posted on the Web site so we are up to date on that information being available to the community.

On another timely matter having to do with the web site, we will begin to migrate to our new web site in the coming weeks, due to the structure and application of the web site being upgraded. Therefore, we need the BOD or a Committee they appoint, to review each and every item currently on the site and decide what should remain and what you feel should be removed. Your review and decision is required as soon as possible as we need to be prepared for this transition. We are available for direction and assistance in this matter.
